

Joint Meeting Hall

Schedule

Through three different segments and activities including promotion and pitch meetings, the release of co-production intents, and face to face discussions about investment and trade, the "Joint Meeting Hall" aims to provide documentary filmmakers substantial cooperation opportunities to achieve a variety of goals, such as co-production, investment and financing as well as proxy agent distribution. The organizing committee of the Golden Tree International Documentary Festival set up a platform for submitting and registering projects, while the participants will report the specific needs of their projects to the organizing committee of the Golden Tree Festival. Based on the submitted requirements and intents of the participants, the organizing committee will invite business partners, documentary film investors, TV stations, agents, film associations as well as filmmakers and producers to attend the festival.
